PROFESSIONAL SUMMARY

Final-year B.Tech CSE student with hands-on experience in web development, AI/ML, and Java through multiple internships and real-world projects. Participated in Google AI Hackathon (Mumbai). Certified in Anthropic's Model Context Protocol (MCP). Skilled in building scalable, production-ready software and deploying applications via CI/CD pipelines.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, PHP, C#

Web & Frameworks: HTML, CSS, React.js, Vite, Node.js, Express, Django, Framer Motion

AI / ML: Machine Learning, Deep Learning, CNNs, Data Preprocessing, Pandas, NumPy, Streamlit

Databases & Tools: SQL, MongoDB, Git, GitHub, Vercel, Google Colab, Jupyter Notebook

Other: Android Development, Flutter, Cloud Computing, Cybersecurity, IoT

Soft Skills: Teamwork, Communication, Time Management, Quick Learning, Discipline

INTERNSHIP EXPERIENCE

Python Development Intern — Python Development

Dec 2025 – Mar 2026

- Worked with Pandas & NumPy for data preprocessing; built and evaluated ML classification models.
- Deployed Streamlit web applications using Google Colab and Jupyter Notebook.

Java Intern — Computer Link Education, Mandvi, Gujarat

Jul 2023 – Aug 2023

- Completed hands-on Java internship covering core Java concepts and object-oriented programming.
- Recognized for being sincere, enthusiastic, and result-oriented with strong teamwork skills.

Python with Django Intern — BrainyBeam Technology Pvt. Ltd.

Sep 2022 – Oct 2022

- Developed back-end web applications using Python & Django with database integration.

PROJECTS

Personal Portfolio Website

React.js, Vite, Framer Motion, CSS, Vercel

- Built a modern SPA using React.js & Vite with Glassmorphism design, smooth animations via Framer Motion, and fully responsive layout across desktop and mobile.
- Deployed via CI/CD pipeline: Git → GitHub → Vercel auto-build; live at portfolio-website-irid-omega-32.vercel.app

Cats vs Dogs Image Classifier

Python, Deep Learning, CNN, Streamlit

- Built a CNN-based image classifier with high accuracy; deployed as a Streamlit web application.

Smart Attendance System

React, Node.js, Express, Deep Learning

- Automated attendance system using deep learning for face recognition with full-stack web interface.

Hand Gesture Control

Python, Computer Vision, OpenCV

- Computer vision application mapping real-time hand gestures to system commands.

AI Resume Analyzer

React, Vite, Tailwind CSS, Framer Motion, Recharts, Python, FastAPI, spaCy, PyMuPDF, Vercel, Render

- Built a full-stack stateless web app that extracts text from uploaded PDF resumes using PyMuPDF, analyzes skills and ATS compatibility via spaCy NLP (en_core_web_sm), and returns an ATS score out of 100 — zero data stored, guaranteeing 100% user privacy.
- Implemented Job Description matching (/api/v1/jobs/match) to calculate match percentage and surface missing keywords; added animated score charts via Recharts and one-click PDF export using custom CSS print rules.

CERTIFICATIONS

Model Context Protocol: Advanced Topics — Anthropic

2026

Introduction to Model Context Protocol — Anthropic

2026

Claude with the Anthropic API — Anthropic

2026

EDUCATION

B.Tech in Computer Science & Engineering — Asha M. Tarsadia Institute

2024 – 2026 (Expected)

CGPA: 8.26 | Google Developer Hackathon Participant

Diploma in Computer Engineering — NG Patel Polytechnic (GTU)

2021 – 2024

CGPA: 7.88

10th Board — Vasishtha School

2021

Percentage: 76.00% | Percentile Rank: 86.71
