SUMMARY

Final-year B.Tech CSE student who builds AI-based apps using Python, React.js, and Node.js. I have made projects that go from idea to a working app, including AI tools, dashboards, and automatic review systems. I took part in the Google AI Hackathon, Mumbai, and have certificates in the Anthropic Claude API and Model Context Protocol.

SKILLS

AI / ML: Machine Learning, Deep Learning, Natural Language Processing (NLP), Agentic AI

Frontend: React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Programming: Python, JavaScript, Java, C, C++

AI / NLP Tools: spaCy, PyMuPDF, Scikit-learn, OpenCV

Other Tools: Git, GitHub, GitHub MCP, Google Colab, Streamlit, Vercel

INTERNSHIP EXPERIENCE

AI/ML Intern — Declone Labs Pvt. Ltd. *Jun 2026 – Sep 2026*

- Learned AI and ML fundamentals, including how models are trained, tested, and improved.
- Practiced core ideas like data cleaning, feature engineering, and different types of ML algorithms.

Python Development Intern — WebForest LLP *Dec 2025 – Mar 2026*

- Built and tested Machine Learning models using Scikit-learn; cleaned and prepared data using Pandas and NumPy.
- Turned trained models into simple, working web apps that people could actually use.

Java Intern — Computer Link Education, Mandvi, Gujarat *Jul 2023 – Aug 2023*

- Learned core Java and OOP basics, which helped build a strong base for later projects.

PROJECTS

AI-Powered GitHub Code Reviewer — *Python, FastAPI, React.js, GitHub MCP, Local LLM*

- Built a tool that uses AI to check GitHub code changes and find bugs, security issues, and other problems automatically.
- Built a backend with REST APIs and a simple dashboard to show the results clearly.

AI Resume Analyzer — *Python, FastAPI, NLP, spaCy, PyMuPDF, React.js*

- Built a tool that reads resumes (PDFs), picks out key details like skills, and gives an ATS score.
- Added a feature that compares a resume to a job description and shows which skills are missing.

Hand Gesture Control — *Python, OpenCV, Machine Learning*

- Built a tool that watches hand movements through a camera and turns them into computer commands.

Smart Attendance System — *Python, Deep Learning, Face Recognition, React.js, Node.js, Express.js*

- Built a face recognition tool that marks attendance automatically, using a React.js and Node.js web app.

Personal Portfolio Website — *React.js, Vite, Tailwind CSS*

- Built and published my personal website, with automatic updates whenever I change the code (Git → GitHub → Vercel).

CERTIFICATIONS

- Model Context Protocol: Advanced Topics — Anthropic, 2026
- Introduction to Model Context Protocol — Anthropic, 2026
- Claude with the Anthropic API — Anthropic, 2026

EDUCATION

B.Tech in Computer Science & Engineering — Asha M. Tarsadia Institute *2024 – 2026 (Expected)*

CGPA: 8.50 | Google AI Hackathon Participant

Diploma in Computer Engineering — NG Patel Polytechnic (GTU) *2021 – 2024*

CGPA: 7.88
